.5 Digital Literacy

.5 Financial Literacy

8.5 Credits of electives

1 Credit of CTE

Public Education Online

The State-wide Online Education Program allows students to earn high school graduation credit through online providers. Students may access high quality online learning regardless of where they attend school, language, residence, family income, or special needs. This program allows students to acquire knowledge and technology skills for a digital world. Students can utilize technology to customize education and to learn in their own style, at their own pace. They can access learning virtually at any time and in any place. Students may accelerate academically. They can customize their schedules to better meet their academic goals. Quality learning options better prepare students for post-secondary education and vocational or career opportunities by allowing them an individualized educational experience. <http://www.schools.utah.gov/edonline/> Course Descriptions can be found at hs.utahonline.org

Directions: Please circle classes totaling EIGHT (8) credits. The number in parenthesis is the number of credits each course is worth. Please note, although Seminary does not give school credit, it should count toward your total of 8 credits. Students need to choose EIGHT (8) total alternate courses, as well.

Symbols: * = Prerequisite is required. \$ = Fee for class.

FOR COURSE DESCRIPTIONS, please visit <http://dhthunder.org>

Classes listed as "CE" (or concurrent enrollment) are taught at DHHS but will earn both high school and college credit.

REQUIRED CLASSES FOR SENIORS

All Seniors **MUST TAKE** any required classes not previously taken. Please check your transcripts and compare with graduation requirements.
